Learning different languages nurtures curiosity and openness among students. They become aware of new cultures, and develop a greater understanding and appreciation of other people and customs that are different to their own. It not only helps to develop critical thinking and problem-solving skills but also creates employment and career opportunities. English is recognised as the most internationally popular language, which makes it the most dominant language in the business world. So to enhance English speaking skills of our students and to give them an understanding of business english our college introduces a course on English named Communicative and Interactive Business English. Besides teaching basic English, CIBE provides a lesson on business English which gives the students a chance to demonstrate a wider professional vocabulary which can result in new opportunities in their career. Studying business English allows them to develop English language skills that are useful in an office or other business environments. By understanding the communication skills needed in the workplace, students can gain the confidence to build strong relationships with their colleagues and clients. Besides a course on English our college also provides a course on Spoken Sanskrit to give our students a glimpse of our cultural heritage. The objective of this course is to give students a taste of Sanskrit as a living language by introducing them to its basic grammatical structures so that they can start understanding simple texts as well as allow them to use it in daily life. It also seeks to give them an understanding and appreciation of the beauty of the different aspects of this language from its sounds to its rich content so that they feel enthused enough to delve further into it.

Communicative and Interactive Business English (CIBE)

English is the most widespread written and spoken language in the world. It is the language of business and communication. Therefore to help improve the spoken English skills of the college students the Department of English, Raja Peary Mohan College, introduced an add-on course on **Communicative and Interactive Business English (CIBE)** for the students of 2nd, 4th and 6th semesters across all streams. It was introduced in 2021-22 session and course duration is 30 hours. The classes are imparted by the faculties of the Department of English with an objective to assist the student in developing skills in the goal areas (intelligibility, vocabulary, grammar, presentation, and interactive communication) so that any deficiencies in skill or practice do not interfere with communication. In the 2022-23 session the course was started in May 2023 and the duration is of 30 hours. Classes were kept in the offline mode, and taken at different times without hampering the normal routine of the college. All the faculty members of the English Department took five classes each covering the syllabus. Even though some students could not finish the course due to other engagements, at the end 15 students have successfully completed the course. Many students felt and expressed that the course was very helpful to them. The Department of English is happy that it could do this Add on Course for the students of the college apart from their regular teachings. In future also the Department will continue organising the course.

Certificate Course on Spoken Sanskrit

Sanskrit is the oldest language of the world and contains all forms of knowledge which includes knowledge of science, technology, and numerology. Discipline and values are the heritage of this language. It is often presented as a difficult language to learn for many and moreover, as a classical language of the past that is of no special relevance in the contemporary world. To make this language more comprehensive and also to enhance the Sanskrit speaking skill of students Department of Sanskrit of Raja Peary Mohan College introduced a more than 30 hours Spoken Sanskrit Certificate Course in collaboration with SanskritaBharati, Dakhsinbanga. This course was inaugurated on 19th April 2022. It has been running successfully for two years and many students are benefitted from this. We signed a MoU with SanskritaBharati and with this, our college took a step towards a new initiative to cherish and promote this long-lost traditional language of India.

In the 2021-22 session, Mrs. Nivedita Pal, the Convenor of SanskritaBharati acted as the main Acharya of this course. Students learned Sanskrit grammar like the use of prepositions, verbs, numbers, tense, and formation of sentences throughout the course. Learning grammar and the names of basic things in Sanskrit not only enhance the speaking skill of students but also make them confident to converse in a traditional and culturally rich language.

In the 2022-23 session, students also learned about Sanskrit poems and songs apart from the uses of grammar and it helped them to understand the language better. The Acharya of this course Mrs. Nivedita Pal emphasized the pronunciation of the words and she also taught the names of Bengali days and months in Sanskrit. So learning the language gives them a glimpse of Sanskrit literature and also introduces them to the rich cultural heritage of our country.

A good foundation in Sanskrit can serve as a master key for anyone interested in accessing the extensive primary sources related to various subjects of Indian Knowledge Systems which have been globally recognized as a vast repository of profound knowledge and wisdom and that the National Education Policy (NEP) is proposing to introduce into the education curricula in the near future. Keeping this in mind our college has taken this initiative for the students of all streams. Students from other departments have registered for this course and have successfully completed this too. The objective of this course is to give students a

deeper understanding and appreciation of Sanskrit as a living language by providing them with its different semantic and syntactic tools. It also aims to offer them a taste of the rich literary legacy that it enshrines so that they feel enthused enough to delve further into its treasures with a greater sense of confidence and independence. This course will be relevant for students across various disciplines who have an intermediate knowledge of Sanskrit because it offers the scope of potentially enhancing their language acquisition skills by providing them with a linguistic framework that can facilitate the learning of several related and new languages. In addition to this, the practice of speaking Sanskrit which is famous for its precise grammatical structure could prove to be a helpful tool in systematizing the thinking process itself and improving expression which in turn could have innumerable other rippling beneficial effects. Thus Raja Peary Mohan College gives its students an opportunity to learn something beyond their syllabus.
